

# HCC1 Hydraulic Cable Cutter

[www.pharosoffshoregroup.com](http://www.pharosoffshoregroup.com)

**PHAROS**  
OFFSHORE GROUP

## Overview

The Hydraulic Cable Cutter (HCC1) is a marinized shear suitable for multiple offshore operations. Capable of shearing solid metal bar, cables, heavy schedule pipe or concrete coated pipelines. The system can be operated topside or via hot stabs. Comes with downlines & topside HPU. The system can include multiple survey options such as camera, lights and sonar.

### Specifications:

Depth Rating	100m
Weight	3,000kg
Length	2.2m
Width	0.5m
Height	1.1m
Jaw Open	559mm
Jaw Depth	635mm
Pressure	300 - 380Bar
Flow	30 - 45 LPM
Cutting Force	655KN
Cutting Speed	40 - 360 secs

### Key Features:

ROV or Topside Controlled
Complete with DNV std. Offshore Rigging
Simple to Operate and Maintain
Complete Document Pack and Certification
High Pressure Option (Intensifier)
Configured for Multiple Lift Modes
